- Lockable wall mount for permanent horizontal and vertical iPad installation
- Lockable to prevent the iPad from being taken away quickly
- Anodized aluminum front and base
- Can also be mounted on glass surfaces with adhesive film
- Compatible with iPad 10 Gen 10.9 inch 2022

Lockable wall mount for permanent iPad installations.

Very flat, only 12mm. There is no additional frame on the long sides of the iPad. This is optically very advantageous, and all controls and other functions (e.g. microphone) are optimally accessible.

The impressively simple and elegant design of the sDock Fix thus underlines the elegant and classic look of the iPad.

Front and base plate made of anodized aluminum, all other parts made of high-quality, partially

reinforced plastic. RoHS compliant.

Optional flush-mounted power supply with s24 c flush-mounted power pack

Scope of delivery: sDock Fix

Key lock with 2 keys

Silicone pads for various iPad strengths

Washers, frosted adhesive film for mounting on glass surfaces

Instructions for use

A power supply is not included.
