- USB dongle with built-in microphone
- Setup via smartphone app
- Allows you to create lighting effects in sync with the music
- Supports 2nd generation Twinkly products
- Requires external USB-A power source (e.g. USB plug adapter or power bank)

USB dongle with built-in microphone.

Installation close to the music source. Setup via the Twinkly app.

The latest algorithms from Twinkly Music decode every sound source in real time, regardless of whether it is classic Christmas carols or ultimate techno music, in order to identify relevant musical elements and to make the synchronized effects via twinkly's 2nd generation fairy lights into a combined audiovisual experience.

Simply pressing the button changes the music driver for the perfect effect and atmosphere, whatever the occasion.

A standard power bank or a USB power supply is sufficient for the power supply.

Bluetooth connection (v4.2 BR / EDR and BLE) and Wi-Fi compatibility (802.11 b / g / n)
